

marked with red veins. Carludovica  
Ecuador, is a small Pandanaceous plant with Palm-  
which offers nothing requiring particular notice.  
Lindeni (Jacobi), from Columbia, is a small Agave-  
having dark green leaves streaked with pale yellow  
margins. In some leaves there are even one or two  
lines of a darker tint. Pothos spectabilis, from  
there is not some mistake, might be taken for
